### **8.3 NATURE OF QUOTE**

A quote given to you by one of our Electronic Platforms is not an offer to contract. If you indicate that you wish to trade at the price quoted you will be deemed to be making an offer to trade at the quoted price and our Electronic Platform will be entitled to confirm or reject that offer. No trade will be effective unless and until such confirmation is given.

### **8.4 FORMATION OF CONTRACT**

Your clicking 'buy' or 'sell' will send a message to our Electronic Platform indicating that you wish to trade on the terms and conditions indicated. This message will constitute an offer by you to buy or sell at the price and trade size chosen. If we accept the trade, we will send you a message to this effect. Your trade will not have been placed and no contract will come into existence until we send this message to you. You must wait for this message to appear after sending a 'buy' or 'sell' message and should you not receive this within two minutes you must notify us immediately. If you do not receive our confirmation and you do not notify us as required, you will be deemed to have agreed only to the transactions recorded by us. Similarly, if you dispute the contents of any confirmation sent by us to you, you must notify us immediately upon receipt, by writing; if you do not, the transactions recorded by us will be deemed to have been agreed by you.

## 8.7 OPPOSING POSITIONS

- a. You may run opposing positions in Margin FX contracts in the same currency pair and a position in a market where you have an opposing position already opened. When you choose to keep two opposing open positions they will be revalued and rolled as an individual open position until you choose to offset or match the two positions.
- b. You may run opposing positions in the same market and a position in a market where you have an opposing position already open will automatically be deemed to be an instruction to close the earlier position. If you have more than one open position in the same market, closing trades will apply to them on a first opened first closed basis, unless otherwise agreed by us.

## 8.8 DIFFERENCE IN BUY AND SELL PRICES

You understand there may be a wider difference between 'buy' and 'sell' prices you are quoted on closing a position than when it was opened.

## 8.9 PROFIT AND LOSSES

You understand that payment will pass between us equal to the difference in a value expressed in United States Dollars (or in your Account Base Currency) between the opening price of all positions and their closing prices.   - ii. close the trade and any open positions resulting from it; or
  - iii. void the Margin FX or CFD contracts from the outset;
  - iv. refrain from taking action to amend or void the Margin FX or CFD contracts.

- b. We will exercise the right in Paragraph 9.9(a) reasonably, in good faith and as soon as reasonably practicable after we become aware of the Material Error. To the extent practicable, we will give you prior notice of any action we take under this clause; but if it is not practicable we will give you notice as soon as practicable afterwards. In the absence of fraud or gross negligence on our part, we are not liable to you for any loss, cost, claim, demand or expense that you incur or suffer (including loss of profits or indirect or consequential losses), arising from or connected with the Material Error including where the material error arising from an information service on which we rely.
- c. In the event that a Material Error has occurred and we exercise our rights under Paragraph 9.9 (a), we may, without notice, adjust your Account or require that any moneys paid to you in relation to the Margin FX or CFD contracts the subject of the Material Error be repaid to us as a debt due payable to us on demand.

#### **9.10 PRICE, EXECUTION PROCESS AND TRADING PLATFORM MANIPULATION**

- If we reasonably believe that you have manipulated our prices, our execution processes or our trading platform, we may in our sole and absolute discretion without notice to you:
- Enforce the trade(s) against you if it is a trade(s) which results in you owing money to us;
- Treat all your trades as void from the outset if they are trades which result in us owing money to you, unless you produce conclusive evidence within 30 days of us giving you notice under this clause that you have not committed any breach of warranty, representation or undertaking in this Agreement;
- Withhold any funds suspected to have been derived from any such activities;
- Make any resultant corrections or adjustments to your Account;

#### **9.11 SCALPING/HIGH TRADING FREQUENCY**

In order to ensure the stability of the our platforms and products, we reserve the right to close, amend or reverse scalping strategies (we define scalping/high trading frequency strategies as a method traders use where they open and close trades within 120 seconds, and these scalping/high trading frequency trades constitute more than 10% of total trades) and EA strategies (an EA is an Expert Advisor, which is an added-on software linked to a MetaQuotes trading platforms and allows for automatic trades under certain conditions) or cBots strategies (a trading robot that runs on the cTrader terminal. Similar to EAs on MetaQuotes trading platforms, custom algorithms are used to automatically execute trading positions). The use of EAs or cBots may be subject to approval by us.

The use of latency arbitrage EAs/cBots or any EAs/cBots involved in front-running or insider trading is strictly prohibited, as the latter constitutes illegal activity. To ensure the smooth operation of your EAs/cBots without encountering issues, consider the following guidelines:-

- a. Pay attention to message frequency; ideally, limit the number of messages sent to the server by the EA to less than 10,000 per day.
- b. Exceeding this threshold, indicative of hyperactive EAs/cBots, may result from excessively frequent modifications to orders (even nearly every second) or attempting to execute trades without sufficient capital.

The operation of hyperactive EAs/cBots is not permitted, as it can strain our broker's server. However, this issue can typically be resolved by moderating the frequency at which EAs/cBots modify orders or by implementing logic to evaluate the account's free margin before initiating order requests. Please be aware that the usage of EAs or cBots may be subject to approval by us.

In the event that you failed to follow the above guidelines, we exercise our rights under Paragraph 9.10, we may, without notice.

## 10) MARGIN

### 10.1 MARGIN REQUIREMENT

Upon placing a trade that creates an open position you are required to pay us, or have in your Account, the Margin for that trade as calculated by us ("Margin Requirement"). This Margin Requirement is calculated as follows:

At the time of opening the position, you must have Margin in your Account at least equivalent to:

- (a) For cTrader, in the case of FX pairs, Metals, Cryptocurrencies, Energies, Stock CFD, Index Future CFDs;

$$\text{Exposure Value} = \text{Lot Volume} \times \text{Contract Size} \times \text{Market Price}$$

$$\text{Margin Requirement} = \text{Exposure Value} / \text{Leverage}$$

- (b) For MetaQuotes trading platform, in the case of FX pairs;

$$\text{Margin Requirement} = \text{Lot Volume} \times \text{Contract Size} / \text{Leverage} \times \text{Margin Percentage} / 100$$

- (c) For MetaQuotes trading platform, in the case of Metals;

$$\text{Margin Requirement} = \text{Lot Volume} \times \text{Contract Size} \times \text{Market Price} / \text{Leverage} \times \text{Margin Percentage} / 100$$

- (d) For MetaQuotes trading platform, in the case of Cryptocurrencies CFD, Energies CFD, Stock CFD, Index Future CFDs;

$$\text{Margin Requirement} = \text{Lot Volume} \times \text{Contract Size} \times \text{Market Price} \times \text{Margin Percentage} / 100$$

\*Margin Percentage can be checked on the symbol specification.

\*\* Margin is always calculated in BASE CURRENCY and will be converted to the account currency.

Retail clients have allowable leverage caps which typically substantially increase the margin required. The leverage caps are set out below and may be updated in our Product Disclosure Statement (PDS) from time to time should regulations change.

## **10.2 MARGIN WHILE POSITIONS OPEN**

In addition to the Margin Requirement, you must have in respect of all open positions on your Account Margin calculated on the basis of the current Contract Price then being quoted and determined by us under Clauses 9.4 to 9.7 (as applicable) of this Agreement. The amount of Margin on your Account at any time will be determined as if such payments as are due under this Clause 10 were calculated and deducted from your Account on an ongoing basis during the day and based on the current bid or offer Contract Price (as applicable).

## **10.3 CONTINUING MARGIN OBLIGATION**

You also have a continuing Margin obligation to us to ensure that at all times during which you have opened positions in your Account balance, that is your total net equity, taking into account all realised or unrealised profits and losses ("P&L"), is equal to at least the Margin that we require you to have paid to us for all of your open positions. If there is any shortfall between your Account balance (taking into Account P&L) and your total Margin Requirement, you are required to deposit additional funds into your Account. These funds are due and payable to us immediately on your Account balance (taking into Account P&L) falling below your Margin Requirement.

## **10.4 EXCEPTIONS**

The requirements imposed under Clauses 10.1 to 10.4 will vary in the following circumstances:

- a. We have expressly told you that you have an account type that allows for longer payment periods for Margin, in which case you must pay Margin in accordance with the payment periods that we have advised you;
- b. We have expressly agreed to reduce or waive a part of the Margin that we would otherwise require you to pay us in respect of a trade; the period of waiver or reduction may be temporary and must be agreed in writing by us. Any such agreement will not restrict our right to seek further Margin in respect of the trade or open positions at any time thereafter;

- c. We agree otherwise in writing, in which case you will be required to comply with such terms and conditions as stated in such written agreement;
- d. When you hold open positions in a Margin FX or CFD contracts and you place one or more trades in the opposite direction in a Margin FX or CFD contract with the same Underlying Instrument, your Margin Requirement for all open positions with the same Underlying Instrument is the larger of the aggregate of the Margin Requirements for all long positions or the aggregate of the Margin Requirements for all short positions;
- e. For certain Margin FX contracts or options or option related instruments;
- f. If we change the Leverage under Clause 10.5. In the case of your continuous margin obligation set out in Clause 10.3, you will not be required to pay it if we have extended you a credit facility, and you have sufficient credit to cover your Margin Requirements. However, if at any time the credit facility is not sufficient to cover the Margin Requirement on your open positions you must immediately place additional funds in your Account in order to fully cover the Margin Requirements.
- g. Retail clients are regularly required to post at least the Leverage set out in 10.1 whatever Leverage requirements we post and update from time to time for different Margin FX pairs and CFDs. However, ours will prevail if they are higher.

#### **10.5 CHANGING LEVERAGE**

We may vary the Leverage, but we will only do so where we reasonably consider it necessary, for example in response to or in anticipation of the following:

- Changing volatility and/or liquidity in the underlying instrument or the financial markets generally;
- Economic news;
- Changes in your dealing pattern with us;
- Your credit circumstances change; or
- Your exposure to us being concentrated in a particular Underlying Instrument.

You should note that there may be other circumstances which may give rise to us changing your Leverage.

The Company reserves the right to adjust leverage offerings up to a maximum of 1:200 (or lower) and/or increase margin requirements automatically within a ten (10) minute window before and after macroeconomic events or news releases that could impact financial instrument prices. This timeframe may be extended based on risk management assessments depending on the news impact.

If you are a retail client you are required to follow the Leverage set out in 10.1 or whatever Leverage requirements we post on [www.monaxa.com](http://www.monaxa.com) and update from time to time for different Margin FX pairs and CFDs. However, the Company's Leverage will prevail if they are higher.

However, if we do so, the Margin Call may be made by Electronic Platform, telephone call or email. The Margin Call is deemed to have been made as soon as you are deemed to have received such notice in accordance with Clause 36. We are deemed to have made a demand on you if:

- a. We have left a message requesting you to contact us and you have not done so within a reasonable time after we have left such a message; or

#### **11.6 YOUR OBLIGATION TO NOTIFY US**

It is your responsibility to notify us immediately of any changes in your contact details and to provide us with any alternative contact details and ensure that our Margin Calls will be met if you will be uncontactable at the email address or telephone number notified to us. You acknowledge that we are not liable for any losses (including indirect or consequential losses), costs, expenses or damages incurred or suffered by you as a consequence of your failure to do so.

#### **11.7 TIME ALLOWANCE FOR FORWARDING MARGIN**

We are not obliged to allow you time to forward further funds to meet such Margin as is required under Clause 11 before exercising our right to close out your positions. However, where we, in our absolute discretion, do allow you time to meet your Margin Requirements, that permission will only be effective once it is confirmed in writing by us, and only to the extent specified in the written notice given by us.

- If the amount calculated as the Contract Value is greater than the amount calculated as the Opening Value, credit the difference to your Account; and
- If the amount calculated as the Opening Value is greater than the amount calculated as the Contract Value, debit the difference from your account.

### **13) CLOSE OF BUSINESS ACCOUNT**

#### **13.1 WHEN WE ACCOUNT**

Commencing at Close of Business on the date of the transaction and at Close of Business on each subsequent business day during the terms of the Margin FX or CFD contracts, (including the closing date), we will account under this Clause 13.

$$\text{Contract Price} \times \text{Contract Quantity.}$$

- The Opening Value exceeds the current Contract Value, the long party will pay to the short party such excess.

- The Contract Value exceeds the Contract Values on the preceding Business Day, the short party will pay to the long party such excess;
- The closing value on the preceding Business Day, exceeds the current Contract Value, the long party will pay to the short party such excess.

#### **13.5 DAILY SWAPS OF MARGIN FX AND CFD CONTRACTS (OTHER THAN EXCEPTED CONTRACTS)**

When you hold a position or positions overnight in a Margin FX or CFD contract (other than an excepted contract) they will be rolled over to the next Business Day which will result in you paying a swap charge or receiving a swap benefit at the Company's Swap Rate and the amount depends on our Swap Rate, being the rates at which you receive or pay interest on positions that remain open overnight. This is a varying rate dependent upon the applicable rate in the interbank markets for the currencies or metals, the duration of the rollover period, the size of the position and the Company's Spread that is applied at our discretion. No swap charge is paid or swap benefit is received in the case of Excepted Contracts; but there will be a Rollover Charge or Benefit: see Clause 13.10. The operation of this Clause 13.5 is subject to Clauses 13.7, 13.8, 13.9 and 13.10.

### **13.6 ENTITLEMENT**

If you are long on a Margin FX contract you may either receive a swap benefit or pay a swap charge, depending on the currency you are long, subject to Clause 13.7 and if you are short on a Margin FX contract you may either pay a swap charge or receive a swap benefit, depending on the currency you are short on, subject to Clause 13.9.

### **13.7 LONG MARGIN FX CONTRACTS**

If you are long on a Margin FX contract where the bought currency interest rates are higher than the sold currency interest rates you will receive interest at the Swap Rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the higher-yielding currency. On the other hand, if you are long on a Margin FX contract where the bought currency interest rates are lower than the sold currency interest rates then you will pay interest at the Swap Rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the lower-yielding currency.

### **13.8 COMMODITY CFDS**

Commodity CFDs over futures contracts do not incur financing costs. Commodity CFDs over physical commodities (such as gold and silver) carried overnight will incur financing costs for the total notional value of the position at the relevant financing rate. If you are short on the Commodity CFDs over futures contract carried overnight you may receive financing from us. However, in certain market conditions, we may require you to pay a daily rollover fee where you would ordinarily have received a financing fee.

### **13.9 SHORT MARGIN FX CONTRACTS**

If you are short on a Margin FX contract where the sold currency interest rates are higher than the bought currency interest rates you will pay interest at the Swap Rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the lower-yielding currency. On the other hand, if you are short on a Margin FX contract where the sold currency interest rates are lower than the bought currency interest rates then you will receive interest at the Swap Rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the higher-yielding currency.

### **13.10 ROLLOVER OF COMMODITY AND INDEX FUTURES CFDS**

A rollover will arise in Commodity and Index Futures CFDs when the underlying front-month futures contract is approaching the expiry date and we change our CFD pricing fee from the front month to the Next Serial Futures Contract. When the new price feed takes effect, you will immediately create a gain or loss in your open trade equity. This profit or loss will depend on your position size and direction and the price differential of the expiring contract and the new contract on which the price will be now based. You will be credited or debited with a Rollover Charge or Benefit that will fully offset the effect of the above-mentioned profit or loss. For example, if you have made a profit on the change, the new Contract Price feed you will receive a Rollover Charge which will offset the gain.

### **13.11 REVALUATION OF POSITIONS AFFECTED BY LIMITED HOURS TRADING**

You acknowledge that any reduction by the application of Limited Hours Trading under this Agreement has the result that open positions will be marked to market after close of trading on the primary exchange and your Margin Requirement will vary accordingly. If you do not wish to accept this additional risk, you may close out any affected contract at any time after notice has been to you.

### 13.12 SETTLEMENT

In relation to swap charges and benefits, they will be accrued in the swap value field of your open trade position. In the event there are insufficient funds in your account, any amount due to us because of the swap charges becomes a debt due and owing by you to us. In relation to commodity and index futures CFDs, Rollover Charges and Rollover Benefits will be accrued in the rollover value field of your open trade position. In the event that there are insufficient funds in your account, any amount due to us because of the Rollover Charges becomes a debt due and owing to us. When we make accounting payments, any payments due under Clause 13 will, subject to Clause 16 of this Agreement, be made by us adjusting the account with effect immediately after Close Of Business on the relevant business day.

## **14) RISK-REDUCING AND ENTRY ORDER STRATEGIES**

### **14.1 AVAILABILITY OF OFFERS**

The placing of certain Orders ('Stop-Loss' Orders, 'Stop-Limit' Orders, 'Entry Buy' Orders or 'Entry Sell' Orders) which are intended to limit the risk may not be effective because Market condition may make it impossible to execute these Orders. Strategies using combinations of positions, such as 'Spread' and 'Straddle' may be just as risky as taking long or short positions. Client's Orders will become Market Orders when the predetermined price level is reached, even if the price is considerably different from the original Order.

### **14.2 MARGIN REQUIREMENTS TO FILL ORDERS**

An order which involves an instruction to us to open a trade above a certain price will not ordinarily be filled unless at the time when the price reaches the relevant limit your Account contains sufficient trading resources to cover the Margin Requirement for the trade which is to be opened. We may, however, at our discretion proceed to fill such an order notwithstanding that your Account has insufficient trading resources to cover the Margin Requirement for the trade which is to be opened. In such circumstances, we reserve the right at any time after the opening of the trade to require you to deposit cash in the amount of the required margin for that trade. Any such further cash deposits will be payable as Margin in accordance with the provisions of Clause 10. A failure to make payment in the time and manner required will be an event of default. We reserve the right to refuse to open a trade in accordance with a limit order if :

- a. There has been an event of default; and
- b. In any other circumstances where we would be entitled to close the trade if it had already been opened.

### **14.3 LIABILITY FOR LOSSES ARISING FROM ORDERS**

You will remain liable for any losses in your Account which may be realised as the result of the filling of an order, regardless of the trading resources available on your Account at the time the order was filled.

### **14.4 OUR RIGHT TO IMPOSE A STOP-LOSS ORDER**

We may impose a stop-loss order on any of your open trades where we believe such action is necessary or desirable to limit the losses on any of your positions including, but without limitation where:

- a. We have any reason whatever to think that you will not pay us any moneys that is or may become due to us; or
- b. You make any statement to us which we have reason to believe is or may not be true; or
- c. You fail to do anything that you have undertaken to us that you will do; or
- d. We are having difficulty in communicating with you and there are grounds for believing that this is because you have failed to take reasonable care to ensure that you are contactable by us at all times. Such grounds will arise if (whether or not in order to make a Margin Call) we dial all the telephone numbers given by you to us but are unable to speak to you personally and:
  - i. We leave a message on any message leaving facilities offered but we do not hear from you within 30 minutes of leaving the message (or, if we leave more than one, the first message we leave, although if we leave or attempt to leave automated message-taking service but for any reason it does not reach you we will nonetheless be deemed to have left a message for you); or

- ii. No message taking services are offered and we dial all the numbers given by you again after a period of not less than 30 minutes and are still unable to speak with you at once.

#### **14.5 INFORMING YOU OF ORDERS WE IMPOSE**

We will as soon as is reasonably practicable after imposing a stop-loss order attempt to inform you of it by email or telephone on the number or numbers that you leave with us and:

- a. Informing you personally of the stop-loss order; or if this is not possible by
- b. Leaving a message if, and only if, there is an automated message-taking facility or a person who offers to take such a message for you. If a message is left, it will be deemed to have reached you whether or not it has in fact done so. We will also send written notification to you by post and/or email at the addresses that you have given to us. We are under no obligation to take any other steps to inform you of the stop-loss order and a failure for any reason to inform you of the imposition of a stop-loss order will not affect the validity or enforceability of that stop-loss order.

- f. you will act in accordance with all Applicable Laws and regulations.

In the event that you place any trade or otherwise act in breach of the representations and warranties given in this clause 25.7 or any other clause of this Agreement or we have reasonable grounds for believing that you have done so, in addition to any rights we may have under clause 15, we may:

We are entitled (and in some cases required) to report to any relevant regulatory authority details of any trade or order. You may also be required to make appropriate disclosures and you undertake that you will do so where so required.

### **38) MT / CTRADER AND THE COMPANY'S MANAGEMENT OF ORDER EXECUTION**

MetaQuotes (MT4 or MT5 or their successors "MT") and/or cTrader are the third-party solutions which can be integrated with our execution services and MT/cTrader facilitates customised or self-written scripts to implement client trading strategies. The Company provides a download of these third-party solutions but has no control over the software or any subsequent client customisation. It is worth noting however that when utilising "instant" orders (the default setting), instead of "market" orders (which permit slippage but reduces the risk of re-quotes) clients can manage their downside risk of slippage through a configurable setting "locally" (by inputting the maximum "deviation" from the current "local" bid/offer price struck). This totally controls the acceptable slippage (difference between the client-side or "locally" displayed bid/offer) which the client is allowing the order to be filled at if it differs from the market price which the Company has on its execution server upon actual receipt of the order.

The primary reason is the time delay between local prices and execution server prices as well as market volatility at certain times.

Latency can be managed through a number of proactive measures such as using an effective ISP, a VPS (Virtual Private Server) Service and ensuring the local machine (PC or laptop) has a high capacity and is unfettered by other resource-hungry applications which may impact the performance to deliver orders. The Company recognises that latency is simply a part of the nature of using the internet so will permit slippage (variance between "market" order price and the actual market price upon receipt of the order) of one pip both in our favour, and out of our favour. This means that whether the Company is in or out of the money, we will still fill this order. If a client does not want any slippage whatsoever if out of the money then they can manage this downside risk by a deviation setting of less than one pip i.e. zero.

- 10.1 In making a decision to copy a specific Master, the Follower should consider the Follower financial situation, including the Follower financial commitments. You should understand that copy trading is highly speculative and that the Follower could sustain significant losses exceeding the amount used to copy a Master because of the following:
  - a) It will involve automated trading execution whereby trades are opened and closed in the Follower/Master's account without the Follower/Master's manual intervention.
  - b) Copied trades in amounts lower than the minimum trade will not be opened.

- c) The system does not allow the Follower to copy all trades which are currently open, or were previously opened. Copying will only be done for future trades.
  - d) Cash-out and withdrawals by the copied Master, when the Follower is using the Copy Trading functionality may also generate a materially different result than the Master that the Follower copied as it may affect the copy trading proportions. This is due to a number of different factors including starting account balance, minimum trade size, the Follower's account settings, differences in spread, interest and market price at the time of copying, and also the difference in fees that may be incurred.
  - e) Following/copying the trading decisions of inexperienced and/or unprofessional Masters.
  - f) Following/copying Masters whose ultimate purpose or intention, or financial status may differ from the Follower's; and/or
  - g) The risk that the Follower does not have access to manage the Follower's copied orders in the trade order.
  - h) The risk that third parties may gain data access to the Account.
  - i) The risks related to Force Majeure events such as natural disasters, military activities, strikes, riots, interruptions to the functionality of networks and other IT equipment, interruption of the electric power, etc.
  - j) The risk that the Follower and/or Master may misunderstand or misinterpret the Terms of Use.
  - k) The risk of late notification to Monaxa or its Affiliated Companies of criminal, fraudulent, or any other illegal actions which are contrary to the Terms of Use.
  - l) The risk of unforeseen delays when transferring funds between Accounts or untimely execution of deposit/withdrawal requests.
  - m) The risk of a unilateral change of the status by any of the Parties according to Clause 5.3 of the Copy Trading Terms of Use.
- 10.2 Past performance, risk scores, statistics, and any other information with respect to Masters under Monaxa Copy Trading functionality are not reliable indicators of future performance. We do not represent or guarantee that the Follower will achieve profits or losses similar to those shown on the Master's portfolio that the Follower is copying.
